Surgery of the Thyroid & Parathyroid Glands

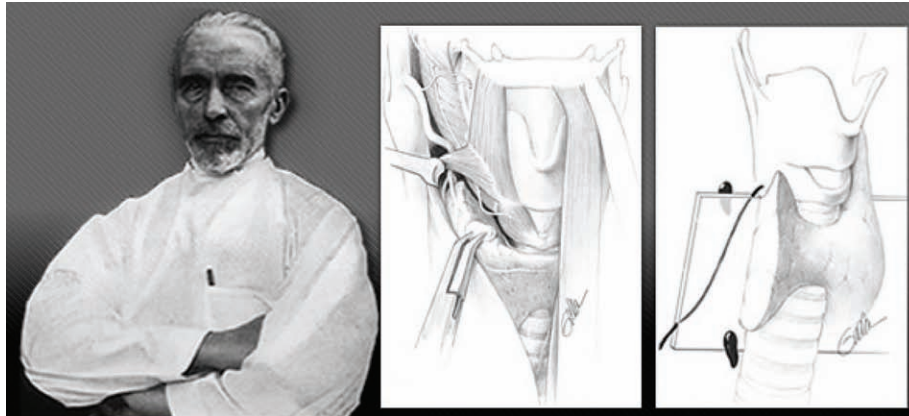

Friday - Sunday

November 7-9, 2008

Dept. of Surgery, Massachusetts General Hospital

Dept. of Otolaryngology, Massachusetts Eye and Ear Infirmary

Boston, Massachusetts

Dear Colleague,

We invite you to join over 40 national and international experts for an indepth 3-day meeting featuring surgical, medical-endocrine, radiology and pathology lectures, interdisciplinary panels and ask the professor sessions.

Surgery of the Thyroid and Parathyroid Glands is intended to be a comprehensive review and update of surgery of the thyroid and parathyroid glands.

Course Highlights:

- *Preoperative work up, FNA, parathyroid localization imaging options.*
- *RLN monitoring and intraoperative PTH.*
- *Minimally invasive surgical techniques.*
- *Preoperative in-office sonography.*
- *Surgical treatment of the neck, and surgical management of airway invasion.*
- *Recognition and treatment of postoperative complications.*
- *Panel discussions of difficult thyroid and parathyroid cases. A syllabus will be provided.*
